

Anti Pigeon Net

Pigeon entry can be stopped by using the [Anti Pigeon Net](#). A horizontal and vertical barrier are made thru **Anti Pigeon Net** to stop entry of pigeon in a particular area of any premises.

Swimming pools, Balconies, Inside Factory Area, Roof top can be barricaded thru Anti Pigeon Net.

We offer tailor made solution for fixing net. Unlike the primitive way of fixing net using nails, our system of installing/fixing net is more modern. Net is available in Transparent colours and Black.

Anti Bird Net

Entire Facade
and Balconies
of rooms were
infested with
Bird
Droppings.

Anti Bird Net

Guests were uncomfortable because of pungent smell of Pigeon Poop and excruciating cooing sound

Anti Bird Net

Birds were
every where

Anti Bird Net

Anti Bird Net

Perching spots used **BY BIRDS** were secured using **Bi**

Anti Bird Net

And balconies were barricaded using Anti Bird Net

Arrows indicate point of fixing net.

100% Pilfer proof Barricade.

Anti Bird Net

All balconies are covered. Arrows indicate one section

Picture after Installation successful completion of project.

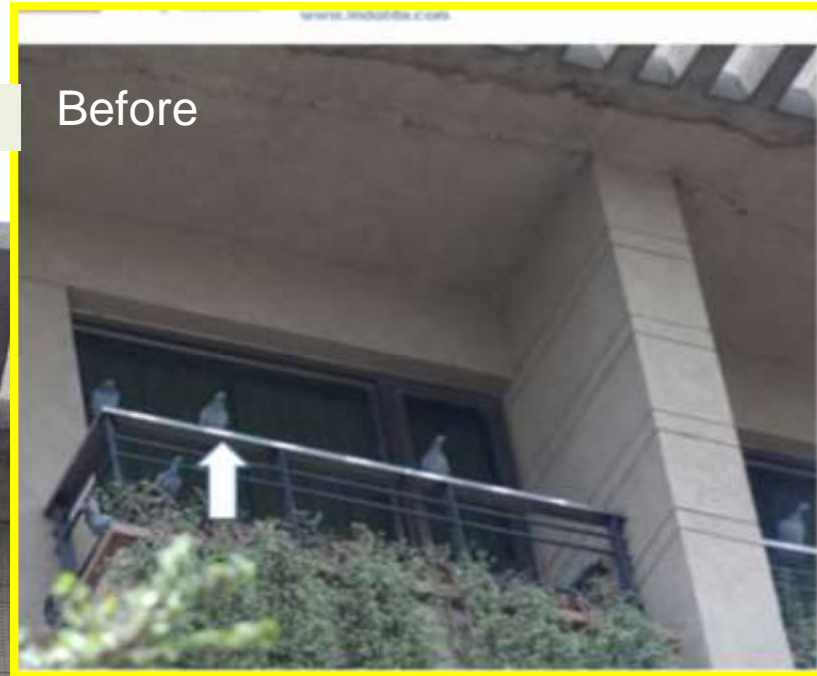

Meticulous installation using sophisticated accessories help maintaining aesthetics of property
